*Light style should be used by default but regular style may be used in some cases.

Usage Guidelines

DO: Use the same size for your icons & text

DON'T: Mix the sizes of your icons & text

DO: Use the same optical weight for your icons & text

DON'T: Use different optical weights for icons & text

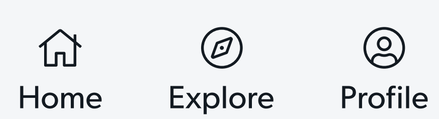

DO: Shift down the baseline of icons to approximately 11.5% of the text size

DON'T: Use the same baseline for icons and text

DO: Use label text with icons in most cases, especially for navigation

CAUTION: Only use un-labeled icon if absolute necessary & the icon is unambiguous

*UX team should be consulted if variation from these guidelines is required.
